| Tell us about a time when you felt out of place.

Few years back during end of the corona...I had a award giving function in my college... they gathered talents from few of our neighbour college students...i was passed out student of 2017 it was the function for 2018-2019 batch... my Hod mam already informed

my father and mother that im gonna get the award... actually I was the part of NLSC (ngo which helps differently abled people to get the job) it became the main reason to get me the award...

But what I felt was... it was not my place... it was full of my college and my hod Mam's influence to get me that... because I saw so many younger talented than me...

But must agree years I saw my lectures, my college auditorium specially my Hod Mam's hug on me... I filled with Emotional tears ... always i have a special bond with my college
